PROFILE SUMMERY

I am a dedicated full stack web developer with more than 2 years of hands-on experience in software development. My expertise spans across server-side and client-side technologies, with a strong foundation in object-oriented programming, data structures, and algorithms. I am proficient in Laravel framework, PHP, SQL, MySQL, JavaScript(ES6+), React, jQuery, Bootstrap, CSS3, HTML5, API integration, Git & GitHub. I thrive in Agile environments, where I have not only developed complex applications but also worked teams of 2 to 3 members to successful project completions.

Programming is not just my career—it's my passion. I have a deep love for solving complex problems and continuously learning new technologies. I am always excited by new challenges and opportunities that push me to grow as a developer and leader.

TECHNICAL SKILLS

PHP • Laravel • MySQL • OOP • JavaScript • Css3

ReactJs • JQuery • Bootstrap • Html5 • Rest API

Data Structure • Algorithms • Git & GitHub

PROFESSIONAL EXPERIENCE

Software Engineer
IT Sheba Limited, Dhaka, Bangladesh
September 2022 – Present

➢ Collaborating with the business stakeholders to capture requirements and deliver as per the specifications.

➢ Worked on full-stack development using Laravel framework, JavaScript, Blade templates, and others.

➢ Collaborated with senior developers to design and develop robust and scalable web applications using Laravel framework.

➢ Improved database performance by optimizing SQL queries and schema design.

➢ Participated in daily stand-up meetings, contributing insights and ideas to enhance project efficiency and functionality.

➢ Implemented software enhancements and updates based on client feedback and changing market demands.

➢ Conducted code reviews and provided constructive feedback to team members, ensuring code quality and adherence to best practices.

EDUCATION

Daffodil International University | (2016-2020)
Bachelor of Science in computer science & Engineering
GPA-3.41 out of 4

College of Finance & Management | Science (2014-2016)
Higher Secondary School certificate
GPA-4.00 out of 5

Baghutia Omar Ali High School | Science (2009-2014)
Secondary School Certificate
GPA-4.19 out of 5

NOTABLE PRPJECTS

01. Inventory & Sales Management System (isms)

Role: Full-Stack Developer | **Duration**: 6 Month | **Team**: 02

Description: Collaborated in a team to build a multi-store Inventory & Sales Management System, streamlining inventory, sales, purchases, expenses, and reporting for businesses.

Technologies: Laravel, PHP, SQL, MySQL, JavaScript, jQuery, Ajax, Bootstrap, CSS3, HTML5

Key Features:

- ➢ Built dashboards for admin, sales, and store managers with real-time data insights.
- ➢ Developed a POS system with invoice generation, sales tracking, and due management.
- ➢ Implemented employee management with role-based access and store-specific assignments.
- ➢ Contributed to store privileges, purchase management, and expense tracking modules.
- ➢ Developed modules for tracking purchases, including pending approvals, canceled orders, and reordering based on stock levels.
- ➢ **Achievements**: Reduced stock discrepancies by 30% through real-time inventory tracking. Improved decision-making with automated sales, purchase, and expense reports.

02. E-Commerce Platform

Role: Full-Stack Developer | **Duration**: 3 Month

Description: Developed a robust e-commerce platform that enables users to seamlessly browse products, manage dynamic shopping carts, and efficiently process orders.

Technologies: Laravel, PHP, SQL, MySQL, JavaScript, jQuery, Ajax, Bootstrap, CSS3, HTML5

Key Features:

- ➢ Implemented secure user registration and login using Laravel's authentication scaffolding.
- ➢ Developed CRUD functionalities for products, categories, and inventory management.
- ➢ Created a dynamic shopping cart system with real-time updates and persistent storage.
- ➢ Integrated secure payment processing and order tracking.
- ➢ Ensured the platform is mobile-friendly and optimized for various devices using Bootstrap**.**
- ➢ Track orders through pending, processing, completed, and canceled stages.
- ➢ The system streamlined operations, reducing admin workload by 25% and improving order processing efficiency.

03. Treavel Agency Platform

Role: Full-Stack Developer | **Duration**: 2 Month

Description: Developed a comprehensive travel agency management system to streamline operations, improve booking processes, and enhance user experience. Integrated multiple modules for admin management, bookings (hotel, flight, tour packages), online payments, and content customization.

Technologies Used: Laravel, PHP, SQL, MySQL, JavaScript, jQuery, Ajax, Bootstrap, CSS3, HTML5

Key Features:

- ➢ Facilitated of administrators with functionalities for viewing and creating admin users.
- ➢ Enabled user listing and creation, ensuring smooth user onboarding and manage processes.
- ➢ Allowed administrators to create and manage packages and itineraries various destinations.
- ➢ Administrators could manage website content such as logos, sliders, blog, travel info, adventure activities, and customer reviews.

Achievements:

- ➢ Improved the user experience by creating a seamless booking and payment process.
- ➢ Optimized administrative tasks with automated tools for user, booking, and tour package.
- ➢ Enhanced customer engagement through package reviews and feedback mechanisms.
